

Robust, Durable, Reliable.

## UNDERGROUND CHAINSAW

This unique pneumatic chainsaw is built tough to withstand the extreme operating conditions of Australian underground mines.

Fully reliable and powerful with a 6HP motor, they are easy to operate and low maintenance. Safety features include - zinc body, nose guard, swing guard, hand guard, strainer, claw fitting, top hat filter & whip check.  
The innovative saw is produced with a Zinc Alloy for use in coal mines as well as the body and handles are sand cast to produce a more robust tool.

The chainsaw also comes complete with an acoustic exhaust silencer, pressurised chain lubrication with adjustable flow valve and more.

When you need a reliable Chainsaw to operate in environmental conditions where aluminium isn't allowed, the TimberKing Underground Chainsaw is perfect!

### Technical Data

Air Pressure	Motor Output	Free Speed	Hose I.D.	Saw Chain	Chain Lubricator	Oil Tank Cap.	Weight - Zinc
6.9Bar (100psi)	4.5Kw (6HP)	4200rpm	20mm (3/4')	.404" pitch x .0.63" guage	Pressure Feed Adjustable	.45 Litres	14kg
